

WILLOWER

Rewriting Life After Unimaginable Loss

Memoir

DEANNA KASSENOFF

Now, there's a word where none existed before in our vocabulary for the bereaved parent: *willower*.

This award-winning author takes us into an unfathomable world of the most profound and permanently disorienting experiences: the sudden death of a child.

In her search for meaning—and messages—in the details of her son Sam's life, Deanna Kassenoff shows us how it is sometimes our *lunacy* that pulls us through our grief.

An intensely honest, eloquent, and seemingly mystical narrative. Told with stunning precision and a compelling voice that turns what would otherwise be impossible to read into a riveting story—a rare treasure that will change you and stay with you forever.

Willower: Rewriting Life After Unimaginable Loss proves that without the power of words, story, and imagination (okay, and maybe a little magic), surviving the death of a child and finding one's way through grief and back to the living again would be impossible.

WILLOWER: Rewriting Life After Unimaginable Loss is the result of the author's sixteen years of experience relearning to live again without her son—yet with him. Her hope is that this book becomes a lasting companion to those who are trying to rewrite *their* lives too.
